

The Food and Beverage Service Operations Course.

## RHA offers new skills development programme

**SIBU:** Rimbunan Hijau Academy (RHA) SibU has announced its new intake for skills development programme in collaboration with the Skills Development Department for the Malaysia Skills Certificate.

According to a press release, the academy was offering a new course to its line of programme targeting school leavers.

The new course on Food and Beverage Service Operations, catering to tourism and hospitality industry can be completed within 12 months for both Level 2 and Level 3.

The programme enables the students to understand work hygiene, safety and practical food and beverage preparation.

Apart from that, it teaches them to lead the crew without neglecting the crucial aspects in food and beverage service operations.

Over the years, food and beverage industry has become

significant and it defines the lifestyle of food enthusiasts, thus the need for skilled and qualified Food and Beverage personnel, the statement said.

Those who want to venture into the world of automotive may enrol with RHA for its Automotive After-Sales service Level 2 and Level 3.

"We have more than 10 years of experience in conducting automotive courses and have produced hundreds of automotive experts since 2005," added the statement.

The objective is to instill the knowledge of automotive systems that equip the students with skills of automotive repair, ability to diagnose and analyse faults in the systems.

On top of that, students will be able to enhance their knowledge in supervisory skills that later become the basis in the management of the automotive sector.
